About us:

The Iranian Psychological Association is a non-profit volunteer based Organization. The origin of the association goes back to the year 1965. After an inactive period in the history of the association finally a group of the members revived the original association in the year 1996.

The association is a scientific-professional organization which is registered in the ministry of science and technology.

The Association is now the largest psychology association of the country and has over 17000 members.

Our Missions:

To promote and develop psychology as a science.

To enhance scientific and update professional qualities in professionals and improve education, research, and service qualities related psychology .

Our strategies:

-To initiate and consolidate cooperation amongst experts and researchers active in the field of psychology at national and international levels .

-To cooperate with organizations involved in executive, scientific, and research issues related to psychology, in order to evaluate, review and improve educational and research programs of our field in line with the aim

-To approach our missions **continued education** in many forms and many fields is our main activity, which is continuously arrived at through biennial nationwide congresses, symposia, workshops, monthly speeches and publications (electronic and paper based).
